(2) The input tax credit determined under sub-rule (1) shall be calculated finally for the financial year before the due date for furnishing of the return for the month of September following the end of the financial year to which such credit relates, in the manner specified in the said sub-rule and-

(a) where the aggregate of the amounts calculated finally in respect of 'D1' and 'D2' exceeds the aggregate of the amounts determined under sub-rule (1) in respect of 'D1' and 'D2', such excess shall be added to the output tax liability of the registered person in the month not later than the month of September following the end of the financial year to which such credit relates and the said person shall be liable to pay interest on the said excess amount at the rate specified in sub-section (1) of section 50 for the period starting from the first day of April of the succeeding financial year till the date of payment; or

(2) of section 17, being partly used for the purposes of business and partly for other purposes, or partly used for effecting taxable supplies including zero rated supplies and partly for effecting exempt supplies, shall be attributed to the purposes of business or for effecting taxable supplies in the following manner, namely,-

(a) the amount of input tax in respect of capital goods used or intended to be used exclusively for non-business purposes or used or intended to be used exclusively for effecting exempt supplies shall be indicated in FORM GSTR-2 and shall not be credited to his electronic credit ledger;

(b) the amount of input tax in respect of capital goods used or intended to be used exclusively for effecting supplies other than exempted supplies but including zero-rated supplies shall be indicated in FORM GSTR-2 and shall be credited to the electronic credit ledger;

(c) the amount of input tax in respect of capital goods not covered under clauses (a) and (b), denoted as 'A', shall be credited to the electronic credit ledger and the useful life of such goods shall be taken as five years from the date of the invoice for such goods:

Provided that where any capital goods earlier covered under clause (a) is subsequently covered under this clause, the value of 'A' shall be arrived at by reducing the input tax at the rate of five percentage points for every quarter or part thereof and the amount 'A' shall be credited to the electronic credit ledger;

Explanation.- An item of capital goods declared under clause (a) on its receipt shall not attract the provisions of sub-section (4) of section 18, if it is subsequently covered under this clause.

(d) the aggregate of the amounts of 'A' credited to the electronic credit ledger under clause (c), to be denoted as 'Tc', shall be the common credit in respect of capital goods for a tax period:

Provided that where any capital goods earlier covered under clause (b) is subsequently covered under clause (c), the value of 'A' arrived at by reducing the input tax at the rate of five percentage points for every quarter or part thereof shall be added to the aggregate value 'Tc';

(e) the amount of input tax credit attributable to a tax period on common capital goods during their useful life, be denoted as 'Tm' and calculated as- $Tm = Tc \div 60$

(f) the amount of input tax credit, at the beginning of a tax period, on all common capital goods whose useful life remains during the tax period, be denoted as 'Tr' and shall be the aggregate of 'Tm' for all such capital goods;

(g) the amount of common credit attributable towards exempted supplies, be denoted as 'Te', and calculated as- $Te = (E \div F) \times Tr$

where,

'E' is the aggregate value of exempt supplies, made, during the tax period, and

'F' is the total turnover of the registered person during the tax period:

Provided that where the registered person does not have any turnover during the said tax period or the aforesaid information is not available, the value of 'E/F' shall be calculated by taking values of 'E' and 'F' of the last tax period for which the details of such turnover are available, previous to the month during which the said value of 'E/F' is to be calculated;

Explanation.- For the purposes of this clause, it is hereby clarified that the aggregate value of exempt supplies and the total turnover shall exclude the amount of any duty or tax levied under entry 84 of List I of the Seventh Schedule to the Constitution and entry 51 and 54 of List II of the said Schedule; (h) the amount T_e along with the applicable interest shall, during every tax period of the useful life of the concerned capital goods, be added to the output tax liability of the person making such claim of credit.

(b) for capital goods held in stock, the input tax credit involved in the remaining useful life in months shall be computed on pro-rata basis, taking the useful life as five years.

Illustration:

Capital goods have been in use for 4 years, 6 month and 15 days.

The useful remaining life in months = 5 months ignoring a part of the month

Input tax credit taken on such capital goods = C

Input tax credit attributable to remaining useful life = C multiplied by 5/60

(2) The amount, as specified in sub-rule (1) shall be determined separately for input tax credit of central tax, State tax, Union territory tax and integrated tax.

(3) Where the tax invoices related to the inputs held in stock are not available, the registered person shall estimate the amount under sub-rule (1) based on the prevailing market price of the goods on the effective date of the occurrence of any of the events specified in sub-section

(4) of section 18 or, as the case may be, sub-section (5) of section 29.

(4) The amount determined under sub-rule (1) shall form part of the output tax liability of the registered person and the details of the amount shall be furnished in FORM GST ITC-03, where such amount relates to any event specified in sub-section (4) of section 18 and in FORM GSTR-10, where such amount relates to the cancellation of registration.

45. Conditions and restrictions in respect of inputs and capital goods sent to the job worker.- (1) The inputs, semi-finished goods or capital goods shall be sent to the job worker under the cover of a challan issued by the principal, including where such goods are sent directly to a job-worker.

(2) The challan issued by the principal to the job worker shall contain the details specified in rule 55.

(3) The details of challans in respect of goods dispatched to a job worker or received from a job worker or sent from one job worker to another during a quarter shall be included in FORM GST ITC-04 furnished for that period on or before the twenty-fifth day of the month succeeding the said quarter.

(4) Where the inputs or capital goods are not returned to the principal within the time stipulated in section 143, it shall be deemed that such inputs or capital goods had been supplied by the principal to the job worker on the day when the said inputs or capital goods were sent out and the said supply shall be declared in FORM GSTR-1 and the principal shall be liable to pay the tax along with applicable interest.
