Day 3 invited Lecture

Zoology Department, C.M.P. Degree College organized an invited lecture on the third day of four-day intercollegiate DBT Fest – "Vigyan Sangam-(Jan 17, 2022-Jan 20, 2022)" on Jan, 19,2022 under the aegis of DBT star College Scheme. The invited lecture was delivered by **Prof. U.C. Srivastava**, Treasurer and Council Member, National Academy of Sciences, India, and Former Emeritus Professor, Department of Zoology, University of Allahabad. The topic of his lecture was "Antioxidants: A boon for the life of human beings." In his lecture, Prof. Srivastava explained antioxidants as well as free radicals in an interesting and easily understandable manner. He said that it is necessary to know about the free radicals to understand antioxidants. He described in a very simple manner how removal of one electron from oxygen atom creates a free radical. Only antioxidants can remove the free radicals from the body and thus antioxidants work as a defence system in our body.

Prof Srivastava told us that free radicals are produced in the body while the antioxidants we can get from food. He described various sources of antioxidants, their mode of action and in how many ways they affect the health of human being. Dr Vandana Mathur chaired this session and Dr Neerja Kapoor introduced the speaker. Dr Uma Rani Agrawal was present as rapporteur and vote of thanks was given by Dr Sudhi Srivastava. Programme is conducted by Dr Ashish Kumar Mishra. DBT coordinator, Dr.SaritaSrivastava, Departmental coordinators Dr. Manoj Kumar Jaiswal and Dr. Charu Tripathi were also present in the lecture along with all the faculty members of Department of Zoology. Many faculties of CMP Degree College and other adjoining colleges as well as students attended the session.
