

## Two Days National Workshop on "Remote Sensing and Geospatial System Using IGIS 2.0"

### Day 01

Today the Department of Geography has inaugurated a Two Days National Workshop on "Remote Sensing and Geospatial System Using IGIS 2.0" in collaboration with Scan-point Geomatics Limited, Ahmedabad.

The chief guest of the event was Prof. Piyush Ranjan Agrawal (Vice-Chancellor, Awadhesh Pratap Singh University, Rewa) and was presided over by the Chairperson of the Governing Body of the College, Ch. Jitendra Nath Singh. Prof. A. R. Siddiqui, Department of Geography, University of Allahabad was Guest of Honour of the Programme.

Prof. Piyush Ranjan Agrawal emphasized on the use of ICT and GPS technology in context of globalization and social changes.

Dr. Vinod Mishra, Vice-President of Scan-point Geomatics Limited described the use of Remote Sensing and Geospatial System Using IGIS 2.0.

Ch. Jitendra Nath Singh shared his experiences with GIS and Prof. Siddiqui discussed the future prospects of the researches in the field of GIS.

The Principal of the College, Dr. Brijesh Kumar opined the significance of GIS in daily life. The convener of the programme, Dr. Archana Tripathi introduced the framework of the Workshop and welcomed the guests. Dr. Pranay Kant Vishwas hosted the event and the vote of thanks was given by Dr. Archana Raje.

The presence of faculty members and the enthusiastic participation of students made the event a success.

### Day-02

Today, the Two Days National Workshop on "Remote Sensing and Geospatial System Using IGIS 2.0" has been completed successfully. In the valedictory session of the workshop, the chief guest was Prof. H.N. Mishra, Emeritus Professor, Department of Geography, University of Allahabad. The session was chaired by Prof. B.N. Mishra, Former Head of the Department of Geography, University of Allahabad. Dr. Archana Pal (Head, Department of Geography, Jagat Taran Girls P.G. College) and Dr. Sunil Kumar Tripathi (Former Head, Geography, Allahabad Degree College) were the guests of honour of the event.

The chief guest Prof. H.N. Mishra described the changes in the ICT through the use of GIS. He highlighted the role of Geoinformatics in the development of Smart City Projects and the solution of urban problems.

Prof. B.n. Mishra opined that the GIS and Remote Sensing technique is important in the establishment of reliability of research and interpretation and analysis of data in science.

Dr. Pal and Dr. Tripathi discussed the use of Remote Sensing in the field of prediction of Climate change and disaster management. The principal of the College, Dr. Brijesh Kumar stated that GIS plays an important role in the analysis of environmental changes.

In addition to this, the first session of the day was ended with a detailed training session on the use of GIS by Dr. K.K. Singh, Mr. Kanishk and Mr. Nikhil.

The convener of the programmed, Dr. Archana Tripathi welcomed the guests. Dr. Pranay Kant Vishwas hosted the event and the vote of thanks was given by Dr. Archana Raje.

The presence of faculty members and the enthusiastic participation of students made the event a success.
